DETAILED ACTION

1. Applicant's After-Final Amendment and arguments of December 1, 2008 has been fully and carefully considered. Applicant has added to the base claim the allowable subjected matter of claims which were indicated as being allowable in the Final Office Action of August 29, 2008.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Title: Delete the current title and insert therefore --Solid phase continuous polymerisation of polyethylene terephthalate (PET) Reactor and Process--

3. The following is an examiner's statement of reasons for allowance: The prior art fails to teach and/or suggest a reactor which produces polyethylene terephthalate which includes a casing; feed lines to feed a low molecular weight PET pre-polymer into the reactor, a gas line to feed the gas through supply valves a gas to the reactor, a discharging line connected to the bottom of the reactor discharge the polymerized PET product, a circuit connected to the reactor to purify the reactor and to recover pre-polymer particles by means a separator, wherein the casing of the reactor is horizontally arranged and wherein disposed within the interior of the reactor are means to generate a plurality of fluidized states in series which increases the intrinsic viscosity the PET pre-polymer flow to a value of greater than or equal to 0.06 dl/g and wherein in correspondence with each fluidized stage a sufficient gas flow is generated by supply valves each valve being equipped with a heating device. The heating device and valve structure in combination with the reactor and fluidizing stages within the reactor permits the

Art Unit: 1797

intrinsic viscosity of the pre-polymer flow to be controlled to values greater than or equal to 0.06 dl/g which has not been fairly taught or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
